

ALOA Continuing Education (ACE) Six-Day Basic Locksmithing Course

Course Description

The ALOA Continuing Education (ACE) 6-day Basic Locksmithing Course will provide you with basic hands-on knowledge of locks and security related hardware. Students will work with basic locksmithing tools such as dial calipers, impressing pliers soft face mallet, lock pick set, along with other locksmith specialty tools. Upon completion of this course, you will have the knowledge required to function as an apprentice locksmith who can perform the following tasks:

- identify and duplicate keys
- service and adjust key machines
- rekey a variety of lock cylinders
- make original keys for a variety of locks; by code disassembly and impressing
- bypass and/or pick common locks
- troubleshoot and service common cylinder and lockset malfunctions
- identify common lock hardware finishes and functions
- be familiar with Life Safety Codes and the ADA
- design and key a simple master key system
- know combination lock operation and changing methods

Students Receive:

- Student Tool Kit (yours to keep after class) containing the following items:**
 - Pinning kit**
 - Pin tray**
 - Follower**
 - Tweezers**
 - Key gauge**
 - Special followers & master follower**
 - Kwikset cylinder removal Tool**
